MyPoli.ai

Know what your policy actually covers.

AI-powered insurance policy analysis for consumers, brokers, and enterprises.

Investor Overview — 2025

shane@mypoli.ai · mypoli.ai

The Problem

Insurance policies are written to confuse, not to clarify.

78%

of consumers don't fully understand their coverage

$8.2B

lost annually to disputes from policy misinterpretation

45 min

average time to get a simple coverage answer

62%

of brokers lack tools for immediate client insights

The Solution

Upload any policy. Ask anything. Get instant clarity.

Upload

Drop in any policy document — PDF, Word, or image. AI extracts and structures the content.

Ask

Ask plain-English questions about your coverage. Get instant, accurate answers with citations.

Understand

See coverage scores, gaps, exclusions, and risk areas at a glance — no legal degree needed.

What We've Built

Two complete platforms — demo-ready today.

MyPoli.ai Consumer Platform

- AI-powered policy dashboard
- Coverage score & gap analysis
- Ask AI assistant (chat)
- Next of kin management
- Demo mode for investors

White Label Broker Portal

- Fully brandable broker portal
- Client dashboard & marketplace
- Broker admin panel & analytics
- Multi-tenant architecture
- Role-based access & MFA

Market Opportunity

$6.1T

Global Insurance Industry

$300B

Insurance Brokerage Market

$12B

InsurTech Market (growing 40% YoY)

Key Drivers

- Increasing regulatory complexity worldwide
- Rising consumer demand for transparency and self-service
- Brokers under pressure to digitise and add value
- AI cost curves making real-time document analysis viable

Revenue Model

Three revenue streams from day one.

Consumer Freemium

$9.99/mo
$79/year

Free basic access, limit based on doc size. Premium unlocks unlimited policy uploads, next kin, AI Q&A, coverage scoring.

White Label Broker License

$25K–$100K /year

Fully branded portal for brokers and agencies. Multi-tenant, admin panel, marketplace.

Enterprise API

Usage-based + $5/doc

Integrate policy analysis into existing platforms, CRMs, and broker management systems.
